NARFE Premier FCU Selects LSI as Contact Center Partner

- Services include complete, 24/7 member service -

ELGIN, Ill., September 15, 2008 – Lending Solutions Inc. (LSI), a provider of contact center services and consulting programs for financial institutions across North America, announced that NARFE Premier Federal Credit Union (FCU), Alexandria, VA, has chosen LSI as their 24/7 lending and member service partner. NARFE Premier FCU is a member focused, member driven cooperative dedicated to delivering financial solutions to members and their families nationwide, no matter what time of day. LSI's services combine advanced technology with highly trained member service specialists to process virtually every lending and member service function on behalf of the credit union. As part of the comprehensive package, NARFE Premier FCU will utilize LSI's internet lending platform, indirect underwriting services, and collections program.

LSI has been processing loan applications for financial institutions for over 13 years, and in 2006 launched its Member Service solution as an ancillary service to its National Loan Processing Center. Credit unions can choose to outsource all or just a portion (i.e. after-hours, weekends, overflow) of their lending and member service support to LSI.

"Our company is organized to merge well-trained staff with comprehensive technology that shoulders the responsibility for providing financial and member support services," says Lee Kolquist, president of Lending Solutions. "By using our services, credit unions can cost-effectively enhance the quality of member services and position themselves to compete more efficiently in the marketplace."
